1. Introduction

We, the undersigned, understand that:

- (a) the Offeror intends to make an offer to acquire, directly or indirectly, the entire issued and to be issued ordinary share capital of Downing Renewables & Infrastructure Trust plc ("**DORE**") not already owned by the Bagnall Group, comprising ordinary shares of £0.01 each in the capital of DORE (the "**DORE Shares**") (the "**Proposed Transaction**");
- (b) it is intended that the Proposed Transaction will be implemented by way of a court-sanctioned scheme of arrangement under Part 26 of the Companies Act 2006 (as amended) (the "**Companies Act**") (the "**Scheme**"), but the Offeror has reserved the right to elect to implement the Proposed Transaction by way of a takeover offer, as defined in Chapter 3 of Part 28 of the Companies Act (an "**Offer**"); and
- (c) the Proposed Transaction will be on the terms and conditions to be set out in the announcement of a firm intention to make an offer to be made under Rule 2.7 of the City Code on Takeovers and Mergers (the "**Code**") (the "**Press Announcement**") (substantially in the form which is attached to this undertaking), together with any additional terms and conditions as may be required by the Code and/or any other applicable law or regulation or as the Offeror and DORE may agree.

2. Condition of undertaking

The terms of this undertaking are conditional on:

- (a) the Press Announcement being released not later than 6.30 p.m. (London time) on the Business Day following the date of this undertaking or such later date and/or time as the Offeror and DORE may agree; and
- (b) either the publication of the formal document containing details of the Scheme (the "**Scheme Document**") and the posting of the appropriate form(s) of proxy or the publication of the formal document containing an Offer (the "**Offer Document**") and the posting of the appropriate form(s) of acceptance, in each case within 28 days of the date of publication of the Press Announcement (or such later time as may be agreed by the Panel on Takeovers and Mergers (the "**Panel**")).

3. **Warranties and undertakings**

3.1. We represent and warrant to and with the Offeror that:

- (a) we have (and will at all relevant times continue to have) full power and authority to enter into this undertaking and perform our obligations under it in accordance with their terms;
- (b) we are the registered holder and/or the beneficial owner and/or the joint beneficial owner of (or are otherwise able to control or direct the exercise of all rights, including voting rights, attaching to, and the ability to procure and/or direct the transfer of) the number of DORE Shares specified in the Schedule (the "**Shares**", which expression will be deemed to include any shares in the capital of DORE: (i) attributable to or derived from the Shares or into which the Shares may be converted, subdivided or consolidated as a result of any reorganisation of the share capital of DORE; and/or (ii) in which we acquire an interest, in each case after the date of this undertaking) and, where stated in column 1 of the table in the Schedule, we are the registered legal owner of the Shares;
- (c) we are able to procure and/or direct the transfer of the Shares free from all liens, equities, charges, encumbrances, options, rights of pre-emption, and any other third party rights and interests of any nature; and
- (d) other than as set out in the Schedule to this undertaking, we do not have any interest (as defined in the Code) in any securities of DORE, or any rights to subscribe for, purchase or otherwise acquire any such securities, or any short positions (within the meaning of the Code) in any such securities.

3.2. We hereby irrevocably and, subject to the terms of paragraph 2 above, unconditionally undertake, unless and until the obligations under this undertaking lapse in accordance with the terms of this undertaking, other than pursuant to the Scheme, we will not (and, if applicable, we will procure that the registered holder of the Shares will not):

- (a) sell, transfer, charge, encumber, pledge or grant any option over or otherwise dispose of, or permit the sale, transfer, charging, encumbrance, pledge, granting of any option over or other disposal of, any of the Shares or any interest in any of the Shares except to the Offeror under the terms of the Proposed Transaction;

- (b) accept or give any undertaking in respect of any other offer or similar transaction in respect of any of the Shares made in competition with, or which might frustrate, the Proposed Transaction or any part of it (whether it is conditional or unconditional and irrespective of the means by which it is to be implemented);
- (c) convene any meeting of the members of DORE in our capacity as a shareholder, nor exercise or permit or direct the exercise of the voting rights attaching to the Shares, in any manner which would or might reasonably be expected to frustrate the Proposed Transaction or prevent the Proposed Transaction from completing; or
- (d) enter into any agreement or arrangement with, or incur any obligation or give any letter of intent to, any person, whether conditionally or unconditionally, or solicit or encourage any person, to do any of the acts referred to in paragraphs 3.2(a) to 3.2(d) or which would preclude us from complying with our obligations under, or the undertakings in, this deed (and, for the avoidance of doubt, references in this paragraph 3.2(e) to any agreement, arrangement, obligation or indication of intent include any agreement, arrangement, obligation or indication of intent whether or not legally binding or subject to any condition or which is to take effect upon or following the lapsing of the Proposed Transaction, the ceasing of this undertaking to be binding or any other event).

4. Scheme

We hereby irrevocably and subject to the terms of paragraph 2 above, undertake, unless the Offeror expressly requests otherwise in writing, to the Offeror that, if the Proposed Transaction is implemented by way of a Scheme:

 - (ii) might reasonably be expected to have any impact on the fulfilment of any Condition (as defined in the Press Announcement) to the Proposed Transaction;
 - (iii) might reasonably be expected to impede or frustrate the Proposed Transaction in any way (which shall include any resolution to approve a scheme of arrangement, merger, acquisition or disposal relating to any shares in DORE or any of its subsidiaries, or any asset of DORE or any of its subsidiaries, by a third party); or

- (c) the Offeror will acquire the Shares pursuant to the Scheme, which provides for the transfer of the Shares to the Offeror, free from any liens, equitable interests, charges, encumbrances, rights of pre-emption and any other third party rights or interests whatsoever and together with all rights existing at the date of the Press Announcement or thereafter attaching thereto, including (without limitation) the right to receive and retain, in full, all dividends and other distributions (if any) authorised, declared, made or paid or any other return of capital or value (whether by way of reduction of share capital or share premium account or otherwise) made on or after the date of the Press Announcement, other than the DORE Permitted Dividends (as defined in the Press Announcement) and any dividend, other distribution or return of capital or value in respect of which the Offeror exercises its right under the terms of the Proposed Transaction to reduce the consideration payable in respect of each DORE Share;

5. Offer

We hereby irrevocably and, subject to the terms of paragraph 2 above, unconditionally undertake to the Offeror that, if the Proposed Transaction is implemented by way of an Offer:

- (a) upon the Offer being made, we will accept or, where applicable, procure the acceptance of the Offer in respect of the Shares and, should the Offer be declared unconditional in accordance with the requirements of the Code, transfer the Shares free from any liens, equitable interests, charges, encumbrances, rights of pre-emption and any other third party rights or interests whatsoever and together with all rights existing at the date of the Press Announcement or thereafter attaching thereto, including (without limitation) the right to receive and retain, in full, all dividends and other distributions (if any) authorised, declared, made or paid or any other return of capital or value (whether by way of reduction of share capital or share premium account or otherwise) made on or after the date of the Press Announcement, other than the DORE Permitted Dividends (as defined in the Press Announcement) and any dividend, other distribution or return of capital or value in respect of which the Offeror exercises its right under the terms of the Proposed Transaction to reduce the consideration payable in respect of each DORE Share;
- (b) we shall exercise or, where applicable, procure the exercise of, all rights attaching to the Shares on any resolution (whether or not amended and whether put to a show of hands or a poll) which is proposed at any Shareholders' Meeting (including any adjournment thereof) which might reasonably be expected to:

- (i) impact on the fulfilment of any Condition (as defined in the Press Announcement) to the Proposed Transaction; or
- (ii) impede or frustrate the Proposed Transaction in any way (which shall include any resolution to approve a scheme of arrangement, merger, acquisition or disposal relating to any shares in DORE or any of its subsidiaries, or any asset of DORE or any of its subsidiaries, by a third party),

only in accordance with the Offeror's instructions;

(c) we shall, after the despatch of the Offer Document to holders of DORE Shares:

- (i) in the case of those Shares referred to in the Schedule, as soon as reasonably practicable and in any event no later than 5.00 p.m. on the tenth Business Day after the date of the Offer Document; or
- (ii) in the case of any other Shares, by the earlier of: (A) 5.00 p.m. on the tenth Business Day after the date on which we become able to control the exercise of all rights, including voting rights, attaching to those Shares; and (B) the latest time allowed for accepting the Offer,

duly accept (or procure the acceptance of) the Offer in accordance with its terms in respect of such Shares; and

(d) notwithstanding that the terms of the Offer Document may confer rights of withdrawal on accepting shareholders, we shall not withdraw any acceptance of the Offer in respect of the Shares or any of them and shall procure that no rights to withdraw any acceptance in respect of such Shares are exercised,

provided that this paragraph 5 shall not be binding on us unless the financial terms of the Offer are at least as favourable as the terms of the Scheme (as set out in the Press Announcement).

 - (ii) the Offeror does not increase the consideration offered under the Proposed Transaction to an amount which represents an offer value equal to or higher than the consideration offered pursuant to the Superior Proposal by 11.59 p.m. (UK time) on the fifth Business Day after the date of the firm intention announcement by the Competing Bidder,

and, in the event that some or all of the consideration pursuant to the Superior Proposal includes non-cash consideration, such as shares or other securities, the amount of consideration offered under the Superior Proposal for the purposes of this paragraph 8.1(c) shall be as determined by DORE's board of directors (acting reasonably), having taken advice from DORE's financial advisers and announced such determination by way of a Regulatory News Service.

- 8.2. If our obligations in this undertaking lapse, we shall have no claim against the Offeror and the Offeror shall have no claim against us, other than in respect of any prior breach of any of the terms of this undertaking.

The first part of the paper discusses the importance of the research and the objectives of the study. It then presents a literature review of the existing research on the topic. The second part of the paper describes the methodology used in the study, including the data collection and analysis techniques. The third part of the paper presents the results of the study, and the fourth part discusses the conclusions and implications of the findings.

The study was conducted using a quantitative research design. Data was collected from a sample of 100 participants using a survey questionnaire. The data was then analyzed using statistical software to determine the relationships between the variables of interest.

The results of the study indicate that there is a significant positive relationship between the variables of interest. This finding is consistent with the previous research in the field. The implications of these findings suggest that the research has practical applications in the field of study.

In conclusion, the study has provided valuable insights into the relationship between the variables of interest. Further research is needed to explore the underlying mechanisms of the relationship and to test the findings in different contexts.

the 1990s, the number of people in the UK who are aged 65 and over has increased by 1.5 million, and the number of people aged 75 and over has increased by 1.2 million (Office of National Statistics 1999). The number of people aged 65 and over is projected to increase to 6.5 million by 2011, and the number of people aged 75 and over to 4.5 million (Office of National Statistics 1999).

There is a growing awareness of the need to develop strategies to meet the needs of the ageing population. The Department of Health (1999) has published a strategy for ageing, which sets out the government's commitment to improve the health and social care of older people. The strategy is based on three main principles: (1) to ensure that older people have access to the services they need; (2) to ensure that older people are treated with respect and dignity; and (3) to ensure that older people are able to live independently and actively.

The first part of the paper discusses the importance of understanding the cultural context of the research. It highlights the need for researchers to be sensitive to the values and beliefs of the communities they are studying. This is particularly important in the field of education, where cultural differences can significantly impact learning outcomes. The author argues that a one-size-fits-all approach to education is not only ineffective but also potentially harmful. Instead, educators should strive to create a culturally responsive environment that respects and builds upon the knowledge and experiences of all students.

The second part of the paper explores the challenges of conducting research in diverse cultural settings. It discusses the difficulties of finding a common ground between the researcher's perspective and the participants' worldview. The author notes that language barriers, differing communication styles, and varying levels of literacy can all pose significant obstacles. To overcome these challenges, the author suggests a collaborative approach where researchers work closely with community members to design and implement the study. This approach not only helps to ensure the research is relevant and meaningful to the community but also fosters a sense of ownership and empowerment among the participants.

The third part of the paper presents a case study of a research project conducted in a rural, low-income community. The study aimed to explore the factors that influence children's school attendance and academic performance. The researchers found that cultural beliefs about education, as well as economic constraints, were major barriers to school success. The study also identified the importance of community support and involvement in addressing these challenges. The author concludes that the findings of this study have important implications for policy and practice, emphasizing the need for a holistic approach to education that takes into account the cultural and economic realities of the community.

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (1990–1999) and the number of people in the public sector has increased by 2.5 million (1990–1999) (Department of Health 2000).

There is a growing emphasis on the need to improve the efficiency of the public sector. The Department of Health (2000) has set out a number of targets for the public sector, including a 10% reduction in the number of people employed in the public sector by 2005. This has led to a number of initiatives to improve the efficiency of the public sector, including the introduction of the 'New Deal' for the public sector (Department of Health 2000).

The 'New Deal' for the public sector is a set of initiatives designed to improve the efficiency of the public sector. [The following text is a dense, handwritten manuscript, likely a letter or a page from a book. It is written in a cursive script and is mostly illegible due to the quality of the scan. The text appears to be a continuous paragraph or a series of connected sentences. The handwriting is fluid and somewhat slanted. There are some words that are more legible than others, but the overall content cannot be accurately transcribed. The text is written in dark ink on a light-colored paper. The margins are narrow, and the handwriting fills most of the page area.]

the 1990s, the incidence of *S. flexneri* has increased in the United Kingdom [10]. In the United States, *S. flexneri* has been reported as the most common serotype in children with acute bacterial dysentery [11].

There is a paucity of data on the epidemiology of *S. flexneri* in the United Kingdom. In the 1980s, *S. flexneri* was the most commonly isolated serotype from patients with acute bacterial dysentery in the United Kingdom [12]. the 1990s, the number of people in the world who are under 15 years of age has increased from 1.1 billion to 1.5 billion, and the number of people aged 65 and over has increased from 0.2 billion to 0.5 billion (United Nations, 1999).

There are a number of reasons why the world population is ageing. First, the number of people who survive to old age has increased. In 1950, the average life expectancy at birth was 47 years, and by 1995 it had risen to 74 years (United Nations, 1999). Second, the number of people who survive to old age has increased. the 1990s, the number of people in the world who are obese has increased by 100% (World Health Organization 2000). The prevalence of obesity in the United States has increased from 15% in 1980 to 23% in 1994 (Flegal et al. 1994). In the United Kingdom, the prevalence of obesity has increased from 10% in 1980 to 15% in 1994 (Rees et al. 1995). The prevalence of obesity in the United States is 23% in men and 26% in women, and in the United Kingdom it is 15% in men and 18% in women (Rees et al. 1995).

Obesity is a major risk factor for a number of chronic diseases, including coronary heart disease, stroke, type 2 diabetes, and certain types of cancer (World Health Organization 2000). Obesity is also a risk factor for a number of other conditions, including osteoarthritis, sleep apnea, and depression (World Health Organization 2000). The World Health Organization (2000) estimates that obesity is responsible for 10% of the global burden of disease.
